

**UPPER ARLEY CONSERVATION AREA
CONSULTATION RESPONSES**

Respondent	Comment	WFDC Response
Steven Bloomfield Worcestershire Wildlife Trust	We welcome the document and are particularly pleased to note the high level of importance attached to the natural environment in the Upper Arley area. This appears to be a trend running throughout the document and is one which we strongly endorse. We are further happy to support the enhancements suggested in section 3.21 and especially the concluding statement made in section 4.0.	Letter acknowledged
Parish Council	Overall very pleased with the document, agreed that the bridge and the 'beach' were areas that could be enhanced. Suggested that Naboth's Vineyard should be protected by a Tree Preservation Order	Comments noted. Conservation Officer to pass suggestion onto Arboricultural Officer when new post is appointed
