Dear madam,

As a long term resident of Bewdley and the owner of two businesses, The Garden Salon & Eden Group, both also in Load Street, I feel I must submit objection to the proposed outdoor music & entertainment at The Angel Public House. There are many reasons behind my objection as a business owner, since the re-opening of the Angel, I have noticed and had to deal with increased litter left over food wine vomit outside my premises, obviously this is a health concern and is disturbing for my staff & customers, I feel that this licence would encourage more of these problems and charge the Bewdley we all know

as a resident weekends are already a problem will continue leaving the Angel and shooting abuse and arguing because of long hours drinking and the Police are becoming more regular visitors to the town to deal with unruly behaviour,

I do trust that you will take into consideration the opinion of myself and many other residents to say no to this Application

Yours faithfully

S. M. Atkinson
