To Whomever it may Concern

I am extremely concerned about the proposed application of the Angel Public house, for a music outdoor licence and would like to object as someone who has worked in Load street for 35 years, it is becoming an increasing problem to walk along the pavement near to where I work, because of rubbish outside the gates and human urine and other left over problems of extended drinking, the re-opening of the Angel customers have mentioned their disgust and worry over the changing face of what has always been a lovely place to work, I do hope this application is refused.

Yours faithfully
A. Simms
